

 **Katell**

THE ITALIA COLLECTION

Welcome

WELCOME TO KATELL, A COMPANY SPECIALISING IN THE DESIGN AND MANUFACTURE OF HIGH QUALITY FIRES AND FIREPLACES.

Our ongoing commitment to high quality and exceptional performance is reflected in this stunning collection of electric fireplaces.

Each fireplace is lovingly designed and created here in the UK and our team of skilled craftsmen ensure products are perfectly suited to your interior and changing lifestyle.

Admiring our fires and fireplaces first hand is the best way to appreciate their stunning design and quality.

Working with leading fireplace retailers across the UK, we are confident you will find the perfect electric fireplace for your home.

THE ITALIA COLLECTION

The Italia Collection from Katell is an exciting range of electric fireplaces, featuring our stunning Eco and Optimyst ranges.

Choose from a range of finishes to suit your home style and decor, our pearlescent finishes provide something special whilst our soft white finishes create a modern look ideal for contemporary interiors - the choice is ultimately yours!

There's a fireplace in the range to suit every property type and every room setting to create a welcoming focal point with great visual impact.

Italia Optimyst

The beauty of a real fire with the simplicity of electric, that's what an Optimyst brings to your home.

Patented technology creates an ultra-fine water mist that rises up through the log-bed. A glowing light reflects against the mist creating an illusion of flames and smoke - so authentic it may be mistaken for the real thing.

Look out for our five Optimyst models, you won't be disappointed.

Italia Eco Fireplaces

Designed to meet the new EcoDesign legislation, our Italia Eco fireplaces are equipped with the latest technologies to help improve your energy savings and protect the environment.

Heater Controls

Italia Eco fireplaces feature the latest heater controls that regulate their use through intelligent sensing and timers.

Room temperature control & open window detection

When the control detects a rapid drop in room temperature, it is perceived that a window or door has been opened and the fire will cut off saving energy. When the temperature starts to increase the fire returns to normal operation.

7 day timer operation

The fire can be set to operate at specific times each day throughout the week. These times can be changed to suit your personal choice.

Adaptive start operation

This operation switches on the fire in advanced of the programmed start time to ensure the room temperature is correct.

Thermostat control

All our Italia Eco fireplaces feature an electronic thermostat. The fire provides automatic heat control producing up to 2kW heat when required.

5
years
Extended
Warranty

2 years parts & labour, with a further 3 years parts only*.

* Only available on Eco products. Products must be registered within 30 days of purchase.

Caring for our environment

When you buy a timber electric fireplace from us, you can be confident that you're helping to protect the planet. That's because all our timber is sourced from sustainable managed forests.

Certified Quality

Enjoy peace of mind when you buy from our range of quality assured products. Certified to the latest ISO9001:2015 and ISO14001 standards.

There's more online

In addition to this beautiful selection of electric fireplaces, Katell manufactures other fireplaces and surrounds. To see our full collection of products and services, visit our website at www.katell.co.uk

Proud to be British

Our market-leading product range is manufactured by us, in the UK, at our 50,000 sq ft base - home to the latest CNC machinery. With room for continued growth and expansion, we're proud to create British products for British homes.

World class customer service

With us, you'll experience the best possible service. We've always been at the forefront of customer care - and our friendly, trained team are on-hand to answer your technical queries and provide the solutions you need.

Amalfi

A perfect marriage of traditional and modern design features, the Italia Amalfi electric fireplace will bring understated elegance to a room of any style.

In a choice of two finishes, with a chunky shelf and inner edge moulded detail, which truly adds a high-end contemporary twist.

Beautifully crafted to create a striking focal point for your room, the Amalfi is part of the Eco collection. Featuring an integrated electric fire with LEDs - designed to provide a realistic pattern of dancing flames over a glowing log bed - it will create a warm, welcoming environment.

Features

- Smart remote control with Eco compliant features - see page 4
- 7-day programmable timer
- Tailored fuel bed options. Logs, ember effects & crystals
- Ambient fuel bed mood lights with thirteen colour options
- Realistic live flame effect with three colour options and brightness setting
- Provides up to 2kW heat output with a flame only setting
- Eco Design compliant
- Flat to wall installation - No need for a chimney
- Smart phone app control option
- 5-year extended warranty

913mm	1317mm (52")	328mm

Cento / Deep Format

Minimal and contemporary, the Italia Cento Wall Mounted and Floor Standing electric fireplace with its wide, deep landscape design will make a perfect focal point for a modern open plan living space.

The extra depth on the deep format fire allows for larger logs and increased illumination of the fuel bed thanks to a new Ambilight flickering light feature. The large format fire is designed to create maximum visual impact in your home.

The integrated Eco Design electric fire features an authentic large log bed with optional decorative transparent slate. Enjoy up to 2kW of heat output or simply use the flame effect for a welcoming glow. Also, thanks to the clever 'smart remote', you're in control of a range of functions. Set a daily or 7-day timer, adjust the heat with the integrated thermostat or use the ingenious 'draft feature', which turns the heat off if a sudden drop in room temperature is detected, saving energy.

Features

- Low level landscape fireplace so you can position your TV at eye-level
- LED ambient mood down lighting feature
- Smart remote control with Eco compliant features - see page 4
- 7-day programmable timer
- Tailored fuel bed options. Logs, ember effects & crystals
- Ambient fuel bed mood lights with thirteen colour options
- Realistic live flame effect with three colour options each available with four mood settings
- Provides up to 2kW heat output with a flame only setting
- Eco Design compliant
- Flat to wall installation - No need for a chimney
- Smart phone app control option (only for the 1500mm (59") model)
- Floor Standing models feature a contemporary mirrored plinth which creates the illusion that the fireplace is mounted to the wall
- 5-year extended warranty

June 2023. Katell Limited continually strives to improve and develop its range of products. It is important to check details before ordering as sizes and specifications may change without prior notice. Whilst every effort is made to ensure accuracy and colour, it is not always possible to obtain perfect reproduction because of the materials and printing processes used.
